BT has been playing together for 3+ years, with the core (Chris, Jeff and David) having been together for 15+ years since college. As sojourners in music often do, our meandering paths introduced us to new, talented musicians with like minds. Our adherence to classic rock is rooted in it's affordability to showcase all of our instruments, from soulful acoustic to bluesy keyboards to ripping guitar solos, we've focused on producing a complete show. When BT plays, the regulars stay...and we always bring a thirsty crowd!
